- Filtration of drilling, milling, grinding, honing emulsions and other liquids
- Filtration of air and dust

Acoustics construction

- Acoustic absorption
- Acoustic or thermal insulation
- Trickle protection
- Protective layers
- Reinforcement for liquid seals

Special applications

- Cured-in-place-piping
- Scent and desiccant bags
- Sports equipment
- Tailor-made solutions

Customized Services
Your Requirements –
Our Tailor-Made Solutions

- **Small Batch Deliveries** –
Receive goods in demand-oriented quantities
- **Framework Agreements** –
Planning reliability through long-term supply concepts
- **Call-Off Orders** –
Order large quantities and receive them in partial deliveries
- **Customized Packaging & Labeling** –
Tailored to your logistics and storage needs
- **Shipping to Various Consumption Sites** –
Direct delivery to your desired locations
- **Managing the whole Supply Chain** –
Fibre to finishing, it is our responsibility

Your Advantage:
More flexibility, less effort, maximum efficiency! Let's find the perfect solution for you together!
